

Dear Parent/Guardian ,

As your son/daughter prepares to enter 12<sup>th</sup> grade, he/she will need immunizations. Indiana law requires that students entering 12<sup>th</sup> grade have the following vaccines:

MCV (Meningococcal) booster is required

MenB (Meningococcal B) and HepA (Hepatitis A) is recommended

In order to get the vaccines, you may contact your physician, or the local Health Department.

If your child has already received the vaccine, please provide a copy to the school. In the event that you have a medical or religious objection, there are specific forms that we must have on file. These must be completed EACH SCHOOL YEAR.

Thank you ,

Amanda Cash, RN

Corporation Nurse, Nettle Creek School Corporation
